The cover girl-
Marilyn Rose

First Annual
North Fork
Designer Showhouse

Designer: **North Fork Design Co.**
 Room: **Office**
 Photography by Elizabeth Glasgow Studios

This inviting home office has a fun vibe with its bold colors, patterns and textures. The walls and focal point on the ceiling are a deep blue. The stunning drapes are accented with a

modern take on a fretwork pattern, while pebbled faux leather and nailhead details on the desk make a great addition to this stylish work environment. A chinoiserie style chair is given a new life, and the painterly style pillow has an artistic presence. The contrast of straight lines against organic art and accessories creates a sophisticated glam office meant to inspire!
